

AccuVein® Vein Assessment Marker

Venous site assessment is an essential first step in choosing the right vein for a successful peripheral IV catheter placement.

AccuVein offers disposable, medical grade, FDA registered, vein marking pens with EZ Removable Ink® designed for non-surgical procedures, including IV access.¹

- Use to clearly mark venous valves, bifurcations, and optimal catheter insertion site.
- White colored ink is highly visible under near infrared light.
- Easy to remove with an alcohol swab after assessment marking.
- Economical and eco-friendly size is easy to carry and store.
- Latex free
